

OFFSITE TRAINING WITH BBP

VEGA

VEGA RADAR & PACTWARE TRAINING

Receive training on the VEGAPULS radar transmitter and guided wave, including the Flex 80. Training will incorporate a hands-on approach where each tech will get the opportunity to connect to an instrument with their personal laptop. The class will also include discussions on applications and commonly used special parameters for difficult measurements.

- ▶ Date: February 18th, 2020 (8 a.m. - 4 p.m.)
