BBP is a manufacturer’s representative and distributor of industrial instrumentation, valves, analytical products and control systems in the Southeast region.
WHO WE ARE

BBP brings over 28 years of expertise in industrial instrumentation, valves, analytical products and control systems across the Southeast region. As an organization, we uphold the values of like, trust and commitment to our customers. Through personalized attention and superior responsiveness, we take pride in being a company our customers like to do business with. We gain trust by providing our customers with vast product knowledge and meeting expectations. By working with our customers to develop customized solutions, we demonstrate our commitment to their success.

Established in 1990, we have grown to represent quality manufacturers across a variety of industries. Following decades of continuous growth, BBP now covers the following areas: Louisiana, Arkansas, Mississippi, Alabama, Florida, Georgia, Tennessee, South Carolina, North Carolina, and Virginia. With an experienced sales force throughout our territories, we have established four additional locations outside of our headquarters in Baton Rouge, Louisiana. A large, technical, inside sales team backs our outside sales force to ensure reliability and responsiveness.

Our 24/7 service department is ready and willing to assist with start-ups, repairs, configurations, troubleshooting and more. Additionally, we offer an expansive training program which provides monthly courses to educate our customers on the safest and most innovative practices in instrumentation, nuclear, radar, and gas detection services.
OIL & GAS
With the critical demand of knowledgeable workforce in the oil & gas industry, BBP promises to provide you with products and training courses that ensure a thorough understanding of maintaining a safe, reliable workplace.

ENGINEERING
We integrate our method of solution-based service and technical expertise with visionary engineering firms to produce viable projects that serve their communities with unprecedented outcomes.

CHEMICAL
To meet the unique requirements of rigorous monitoring and testing procedures found in chemical plants, BBP serves our customers quality control systems to measure continuous and batch production processes.

FOOD & BEVERAGE
Our number one goal is to provide customers with the tools and solutions that produce a safe, high-quality, and consumable product while keeping sustainability and efficient practices in mind.

REFINING
Our extensive experience with unit operations equips our application engineers to meet the needs of the most challenging projects while maintaining safety and efficiency standards of the refining industry.

MUNICIPAL
With access to leading-edge technology and vast application expertise, BBP will work with you to create and implement reliable, effective water solutions that operate smoothly in a highly competitive market.

POWER GENERATION
Equipped with best practices and superior service, our team provides solutions to overcome the unique challenges associated with maintenance, repairs, upgrades and other intricacies of the power generation industry.

PULP & PAPER
This industry demands safe, reliable, and durable equipment; fast response time, quick delivery, and industry expertise. We meet these challenges by employing service technicians with considerable product knowledge and experience in mills across the Southeast.

PHARMACEUTICAL
Efficiency and reliability are critical components for successful pharmaceutical manufacturing practices, which is why we deliver innovative approaches to provide practical solutions to meet our customer’s needs.

MARINE
With years of experience serving the marine industry, our application engineers use their extensive product knowledge to create custom solutions for our customers while maintaining safe, reliable practices.
WHAT WE DO

**BBP SENSORS**

BBP Sensors offers a wide variety of temperature and pressure products including thermocouples, RTDs, orifice plates, instrument hardware, and more. We carry local inventory to ensure quick lead times for standard and custom designs. Customers can expect quality material that meets a wide range of industry specs. Our team provides uniquely engineered solutions with rapid and dependable delivery along with comprehensive solutions suited for a wide variety of applications.

**BBP PROCESS AUTOMATION**

As an authorized Yokogawa system integrator, BBP offers a wide variety of DCS, PLC, custom-built panels, data acquisition and wireless solutions that integrate hardware and software into a control system for a simplified customer experience. Our team of experts engineer solutions specific to each application while delivering unparalleled service and responsiveness. No matter how unique your manufacturing or production needs, we are committed to designing and engineering a custom automated control solution specific to your application.

**BBP VALVE AUTOMATION**

BBP is the leading distributor of valve automation equipment in the Southeast. At the BBP Valve Automation Center, our team of industry experts assists maintenance and engineering professionals with their most challenging valve issues. We work to create customized solutions to suit the specific needs of each application. BBP is committed to delivering high-quality valve automation packages with timely delivery. We are able to automate all major manufacturers’ equipment to create reliable, robust, and economical solutions.

**OUR TERRITORIES**

LOUISIANA    FLORIDA
ARKANSAS    TENNESSEE
MISSISSIPPI    SOUTH CAROLINA
ALABAMA    NORTH CAROLINA
GEORGIA    VIRGINIA
24/7 SERVICE
▶ In-house repair
▶ Start-up assistance
▶ Troubleshooting
▶ Turnaround support
▶ ISO Calibration services

TRAINING
▶ Instrumentation
▶ Valves
▶ Nuclear
▶ Radar
▶ Gas Detection

NUCLEAR SERVICES
▶ Licensed Radiation Safety Officers
▶ Start-up
▶ Source holder & shutter repair
▶ Leak tests & shutter checks
▶ Source transfer
▶ Troubleshooting

AVAILABLE 24 HOURS, 7 DAYS A WEEK.

MANUFACTURERS WE REPRESENT

Panametrics
Flow Measurement & Control
- Ultrasonic Flow Meters
- Moisture
- Ultrasonic Gas
- Vortex Multivariable Flow Meters

AGAR CORPORATION
Oil / Water Interface Detection & Control
- Hydrate Detection
- Automatic Tank Dewatering
- Desalter Control

DelVal Flow Controls
- High Quality Ball Valves
- Butterfly Valves
- Automation

ELPRO Technologies
Wireless Technology
- Wireless Input/Output (I/O)
- Industrial Wireless Gateways
- Industrial Wireless Modems
- Environmental
- Wired Networking

Moore Industries Worldwide
Interface Instruments
- Functional Safety
- Temperature Sensors & Transmitters
- Limit Alarm Trips & Switches
- Signal Transmitters, Isolators & Converters
- Remote I/O

JFlow Controls
- Ball Valves
- Control Valves
- Specialty Valves
- Instrumentation
- Actuators
- Automation Controls
